## **Water**

2020 Annual Consumer Confidence Report is available online:

[https://www.millisma.gov/sites/g/files/vyhlf901/f/uploads/ccr\\_2020.pdf](https://www.millisma.gov/sites/g/files/vyhlf901/f/uploads/ccr_2020.pdf)

Hard copies are also available at the DPW, BOH and Select Board Offices.

Farm Street water tank has been filled just waiting test results before putting back online of July 01, 2021. MassDEP has given permission for the tank to be put back into service 6/28/21.

Walnut Street water tank upgrades have been put on hold until fall of 2021.

Mandatory water ban is in effect from May 1st through September 30<sup>th</sup>. There are major changes to outside water usage that has been put in place by the MassDEP. Please visit the DPW website [millisma.org](http://millisma.org) for updates.

## **PFAS**

Testing of well #3 is done monthly with an average 15 ppt, wells #4 - #5 - #6 tested quarterly with an average of 5-9 ppt. Wells #1 and #2 remain offline, a preliminary analysis for a new treatment plant to address PFAS at wells #1 and #2 has been completed. Over the summer the final design and cost for the new plant will be completed and for a presentation to the Select Board.

- *MassDEP MCL\*ng/l for PFAS IS 20ppt*
- *All test results for PFAS can be found on the DPW website [millisma.org](http://millisma.org) under PFAS testing*

## **Sewer**

Smoke testing will begin in early August and continue for about 2 months. Please be advised that homes in the testing areas will be notified prior to the start of testing.

## **Stormwater**

Bids will be taken for drainage improvements in August, work will begin in early Fall at the intersection of Village Street and Birch Street.

Design for drainage issues at the intersection of Village Street and Plain Street and Spencer Street will begin in July, 2021.
